

The Scoop

Simple Works

At my house, we have at least a dozen toy phones. They range in uniqueness and style. Some light up and make realistic ringing noises, while other flash and talk to you in the voices of popular characters. The thing that always baffles me is the fact that my girls end up fighting over the most generic, plain-looking toy phone of all. They literally fight over the ones that are basically rectangle pieces of plastic with stickers that make them look like the first cell phones ever made. It has made me think, though, that simple works for kids. Yes, I know kids like the intricate and advanced, but they also like simple. As Christmas approaches and focus is put on Jesus, many of us parents will most likely get questions about Jesus. In the midst of those questions, one thing we should remember is that simple works. As children grow in knowledge and understanding it does become important to begin to share with them the more complex truths regarding Christ, but until those days come, simple is good. Building a foundation on the simple, yet, undeniable and powerful truths of Christ is what will set our children up to grasp the more complex truths on down the road. So, keep it simple and go from there. When our kids are ready for more, they will let us know. Simple is always a great place to start.

Event & Activity Spotlight- Children's Christmas Program

Many of our children have been working very hard to prepare for our Children's Christmas Program with Ms. Terri on Wednesday evenings. If you have a child is interested in being a part of the Christmas program but has not been to the practices, it is not too late. The children's choir will be rehearsing the next couple of Wednesday evenings at 6:30pm upstairs with Ms. Terri. You will not want to miss it. It will be a great night of singing and celebration the whole family will enjoy!
